Team Play: Agile, Scrum, Solid Principal
Soft skill: Adaptability, Teamwork, Interpersonal communication skills, Active listening, Patience, Open-mindedness, Problem-solving, Accountability, Confidence, Time and project management, Positive attitude

EDUCATION

Daffodil International University   **Dhaka**
Bachelor of Science, Software Engineering   Jan 2019

PROJECT

Local Government Engineering Department (LGED)
Programmer

My role in this project is as a programmer. We use C#, Asp.net MVC, JavaScript & Microsoft SQL Server use for this project. This project was mainly developed for monitoring government infrastructure-related work. I make some reports. And I work some key feature like district, division Crud operation & some preview page etc.

Bangladesh Inland Water Transport Authority
Programmer

My role in this project is as a programmer. Microservice is also used for this project. This project was mainly developed for BIWTA so that they can observe their vessels, collect tax for specific vessel. That project I work from first time. So, I make many features. Like ACL (Access Control Layer), Conservancy tax calculation, pending tax calculation, Available vessel feature etc. When I worked on this project I got to know how tax calculation is done for BIWTA and many other things also.

National Skills Development Authority (NSDA)
Programmer

My role in this project is as a programmer. Microservice is also used for this project. This project was mainly developed for people who can take different skill training by registration. Also, foreign people can take that skill training program by registration, etc. That project I work from first time. So, I make many features. Like ACL (Access Control Layer), Skill training provider registration feature, Training assessment material, Freelancer certificate issue, Course accreditation etc. When I work on this project I lead our one intern employee. That time I got to know how mentor an employee. At this time, I got to know how to implement role permission (backend & frontend), I got to know how to auto log out after few minutes and many other things.

Bangladesh Marine Academy (BMA)
Junior Programmer

My role in this project is as a Junior Programmer. C#, Asp.net MVC, Angular & Microsoft SQL Server are used for this project. This project is mainly developed for marine academy students so that students can update their results, class time, Teacher can update their course schedules, and management can update full marine academy progress by this application. That project where I learn how to write store procedure, Create RDLC report, Marine student exam feature etc.
